Limitless Shanghai

Shanghai is a destination of choice in Asia. Home to the 2010 World Expo, it is a cosmopolitan city with a unique blend of Asian and Western influences. The arts, once almost hidden, now flourish in concert halls and galleries; big-name concerts and sporting events grow more frequent; and restaurants offering food from around the world are readily available. In its mission to be a world city, Shanghai has worked to assure that the city grows in a balanced way. Hundreds of acres of parks have been created in recent years to balance the growth of new industrial zones. The greater city of Shanghai and the local neighborhoods offer a variety of cultural and social opportunities for both families and singles. Life for many teachers centers around the people of the Concordia community.

“Shanghai is an exciting place to live and travel from.”

–Grade 5 Teacher

Why Concordia?

“Concordia is a special place with supportive colleagues, wonderful students, and excellent resources, which is all based on faith based values and actions.”

–High School Science Teacher

Clearing the Air

Concordia’s goal is to keep the air quality on campus safe and at a healthy level. In Spring 2014 Concordia invested over half a million USD in fixed air filtration systems to ensure internal air quality that exceeds US EPA standards in all classrooms and large gathering areas. Guidelines and procedures were also put into place to adjust programming as necessary should poor outdoor air quality levels occur during the school day.

“We will continue to do what is necessary to make sure we have a safe high quality learning environment.”

–Head of School

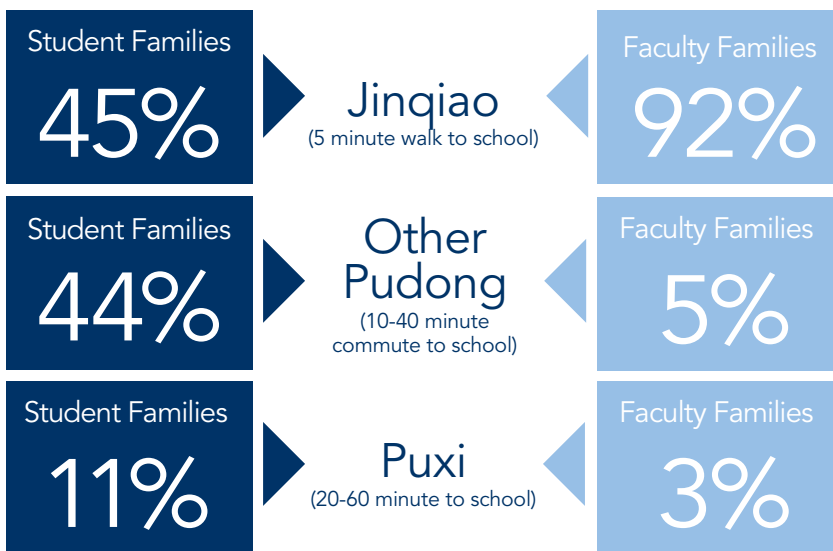

Today Concordia uses three Met One 831 air quality units to monitor air quality on campus. An outdoor air monitor unit provides accurate outdoor air quality around Concordia. This excellent equipment allows authentic learning opportunities for AP Environmental Science students who continuously analyze the actual air quality readings from around the school and educate the community on their findings.

Destination Concordia

Concordia believes that the quality of our faculty is one of the more significant factors affecting student achievement. As a direct result, we commit the largest portion of our resources to the salaries and benefits for our faculty.
